## ABOUT ME

I'm a passionate and creative web developer looking forward to a position in an organization with good growth prospects. I'm a self-taught developer and a lifelong learner. I'm aiming to create, collaborate and be part of something big that can change our daily lives. I can be a great contributor to the organization through my dedication and strong work ethics.

## PROJECTS

### KAGU

- Ecommerce website that is built using React Js, Material UI, Firebase
- I designed the layout using figma and chosen a minimalistic approach to match with the product and to make it elegant and user-friendly.

### KUMPAS

- Gallery website that is built using Javascript, Bootstrap, Node Js with CRUD functionalities
- As an artist, I want to showcase my works through online platform with just the artwork and data related that is why this website is created.

### FINANCIAL FREEDOM

- Static website that is built using HTML, Javascript, Bootstrap
- Financial Literacy is a bit overwhelming to learn if you're first learning it that is why I created this website for a complete beginner and make the design light and approachable.

## EMPLOYMENT HISTORY

### Image Annotator / Labeler

July 2020 - Jan 2022

Glimmertech (part-time)

- I did accurate annotations to images or sensor data by following labeling guidelines.
- Labels are chosen to give the computer vision model information about the objects present in the image.

### Customer service rep

Jan 2019 - March 2020

TELUS International Philippines

- I handled billing queries through chat and direct phone calls.
- I did sales and basic technical support as well.

### Data Verification Analyst

Dec 2017 - Nov 2018

Webscene Business Solutions Inc.

- I did data verification of different websites through the details presented.

## EDUCATION

BS in Electrical Engineering  
(5th year)

Polytechnic University of the Philippines  
2012-2017

## CERTIFICATION

### KODEGO

Front-End Development Bootcamp

April 2022 - Aug 2022

- Rank 4th in Kodego Batch-9
- Completed 2 fully responsive and dynamic website and 1 responsive static website.
